ABT ventile	ABT - VALVE CAPS 4 valve caps with ABT logo	ANA000010	16,81	C

On all vehicles built from Nov. 2014 a tire pressure control system is standard. In general there are two different systems.

1. Indirect measuring tire pressure control system: In this case no sensors in the wheels are needed due to the measurement of the tire diameter through the antilocking system.
2. Direct measuring tire pressure control system: In this case for each wheel a tire pressure sensor will be needed. There will be additional cost for ordering an ABT complete wheel set.

When ordering a complete wheel set please indicate if your vehicle uses a direct or indirect tire pressure control system.

Please find more information about our products on our website www.abt-sportsline.com, at our configurator on www.abt-configurator.com or at the dealer portal on www.dis.abt-sportsline.de.

The stated prices are valid until 31st of December 2018. All prices are to be understood ex-work Kempten (without taxes, duties and freight charges). Price changes, errors or technical changes are expected and subject to change without notice.

ABT suspension	ABT - ANTI-ROLL BARS for front- and rear axle assembly incl. axle alignment	8W605024300	663,87	C
			423,00	

Restrictions may apply for ABT suspension products in terms of installation or set up on the serial car. Please check if there will be any limitations for your vehicle at the ABT configurator, get in contact with your ABT partner or speak to ABT Sportsline directly.
Higher costs for the installation of the ABT-suspension may arise due to additional set up costs for electrical equipment (like automatic cruise control, active lane assist, active side assist and others). These costs are not included yet in the installation. The instructions of the manufacturer have to be obeyed.
